

# Quick-Cut

## The Miracle Punch

### THE ORIGINAL PATENTED TOOL WITH INSERTION ADAPTOR

The easiest means of holing irrigation polyethylene pipelines, 16 and 20 mm, and inserting sprinklers and drips.

Suitable for home garden owners, garden contractors, greenhouses and garden centers.

#### Advantages:

- Easy and simple to use.
- Time saving.
- Hole is always in the center of the pipe and doesn't cut through to the other side.
- Special blade construction ensures discharge of waste plastic through the blade.
- Easily interchangeable blades, 2mm, 3mm and 4mm.
- Blade protected to prevent injury.
- The insertion adaptor at the rear of the tool facilitates insertion of connectors with spaghetti piping into the pipeline.

#### Features:

- When working with 20mm piping, the slide adaptor under the pipe is removed.
- Steel blade is fully hardened, heat-treated and ground for long life and accuracy of cut.

#### Hints:

- Use a quick cutting movement for optimum results.
- Oil blade occasionally to prevent sticking.

Beware of poor quality imitation tools

Inserts connector components on spaghetti piping into main pipe
